Claim Example

Restaurant: A newly constructed restaurant had various contractors and subcontractors install a heating system, a sprinkler system and other equipment. When the restaurant opened its doors, the heat kicked on and accidentally set off the dry sprinkler system. The chemicals from the sprinkler system ignited because they were installed too close to the heating system. More than 17 people were injured, and a few were seriously injured. A judge determined that the restaurant was 15% responsible for the claim damages, and the case resulted in an umbrella settlement of more than \$800,000.
